ONLINE SUMMER SCHOOL

FUNCTIONAL ANALYSIS

21 March - 1 April, 2022

**FIND OUT WHAT IT MEANS TO BE AN ANALYST!
ENROLL THIS ONLINE SUMMER COURSE!**

ECTS credits: 3.0

**SAMARA
UNIVERSITY**

BRIEF DESCRIPTION

Find out what it means to be an analyst, including - what technical knowledge is necessary, - how to perform business and system analysis within different projects and products . We will explain technical fundamentals (so it is ok if you are new to IT and do not have a background in systems development), show examples of using the system and business analysis instruments and techniques within a project and product management frameworks. Even though you will cover some introductory material, you will also see and discuss real cases of applications development from Russian and international companies. We are sure that it will be interesting for experienced analysts: during the program, you can enhance your hard skills and then try to apply them during the case study. This program is jointly introduced by Samara University and Accenture company
